Monthly Llandysul Town Wi-Fi Report - July 2024

LLANDYSUL FOOTFALL

2023 November and December incomplete data due to technical issues.

Notes

1. There is an increase in footfall for this month but as a unit kept going down in June, it suggests that June would have been a lot higher. This figure is slightly above the footfall recorded in July 2023 and 2022.
2. The unit which kept dropping out, settled down until the last day of July and has started to drop connection intermittently again.
3. Not every device can be detected, so the amount counted is not exact and there are not enough access points to cover the town. However, the data collected might spot any trends over time or identify areas of the town that are particularly popular with visitors.
